ECI Co-Chair Slate Procedures

1. Each component group nominates two individuals to serve as their co-chairs.
2. Those names are submitted to the Governance Component group.
3. Clarifications and background information on the candidates are collected by the Governance Component Group from each component group and a proposed slate is developed. That slate is recorded on the form above.
4. The proposed slate is submitted to the co-chairs to reviews and develops a final slate considering broader issues of collaboration and representation that the co-chairs would find important and desirable.
5. The slate is presented to the ECI Council at its annual meeting for an up or down vote. (The first time this process is employed, each position will be assigned a term length so term ending dates are staggered to allow for continuity of leadership.
