

All children need comprehensive health services that address vision, hearing, nutrition, behavioral, and oral health as well as medical health needs.

Early Learning

All children should have access to early care and education opportunities in nurturing environments where they can learn what they need to succeed in school and life.

Health, Mental Health and Nutrition

Family Support

Special Needs/ Early Intervention

All families should have economic and parenting supports to ensure all children have nurturing and stable relationships with caring adults.

All children with special needs should be identified as early as possible, assessed, and receive appropriate services.
